

MASK WEARING COMPLIANCE: ACTIONS TO ADDRESS STUDENTS

Mandatory mask wearing in all communal areas is College policy.

We are mindful that our young people have spent months out of education and in lockdown, so we must expect some challenge in settling back down to college life.

Our first approach to addressing student behaviour which does not meet college expectations or does not comply with college policy, is to have a coaching conversation to explain the potential risks to self and others of not wearing a face mask and the breach of college and H&S policy.

Students who do not have a mask will be offered one at entry to college.

Students who are not wearing a mask in communal areas will be asked to put their mask on.

Students who refuse to comply with this request will be put in a process designed to protect the college community from the transmission of coronavirus. See flowchart.

The 'Response Team' will consist of colleagues who have a duty radio: Student engagement Mentors, Behaviour Support, Duty Manager.

Face mask compliance process
